

Microservices with Service Fabric

Easy... or is it?

Goals

target

Stateless and **Stateful** Services

Partitioning of Business Data

Message Patterns and Partitioning

Premise

A tale of

chocolate

Karl's, Sales Pitch

Our Chocolate Microservices

High Availability

Stateless Services

Automatic Rollback

Load balancing

Hyper Scale

Data Partitioning

Stateful Services

Rolling Upgrades

Replication & Failover

Self-healing

Health Monitoring

Container orchestration & lifecycle management

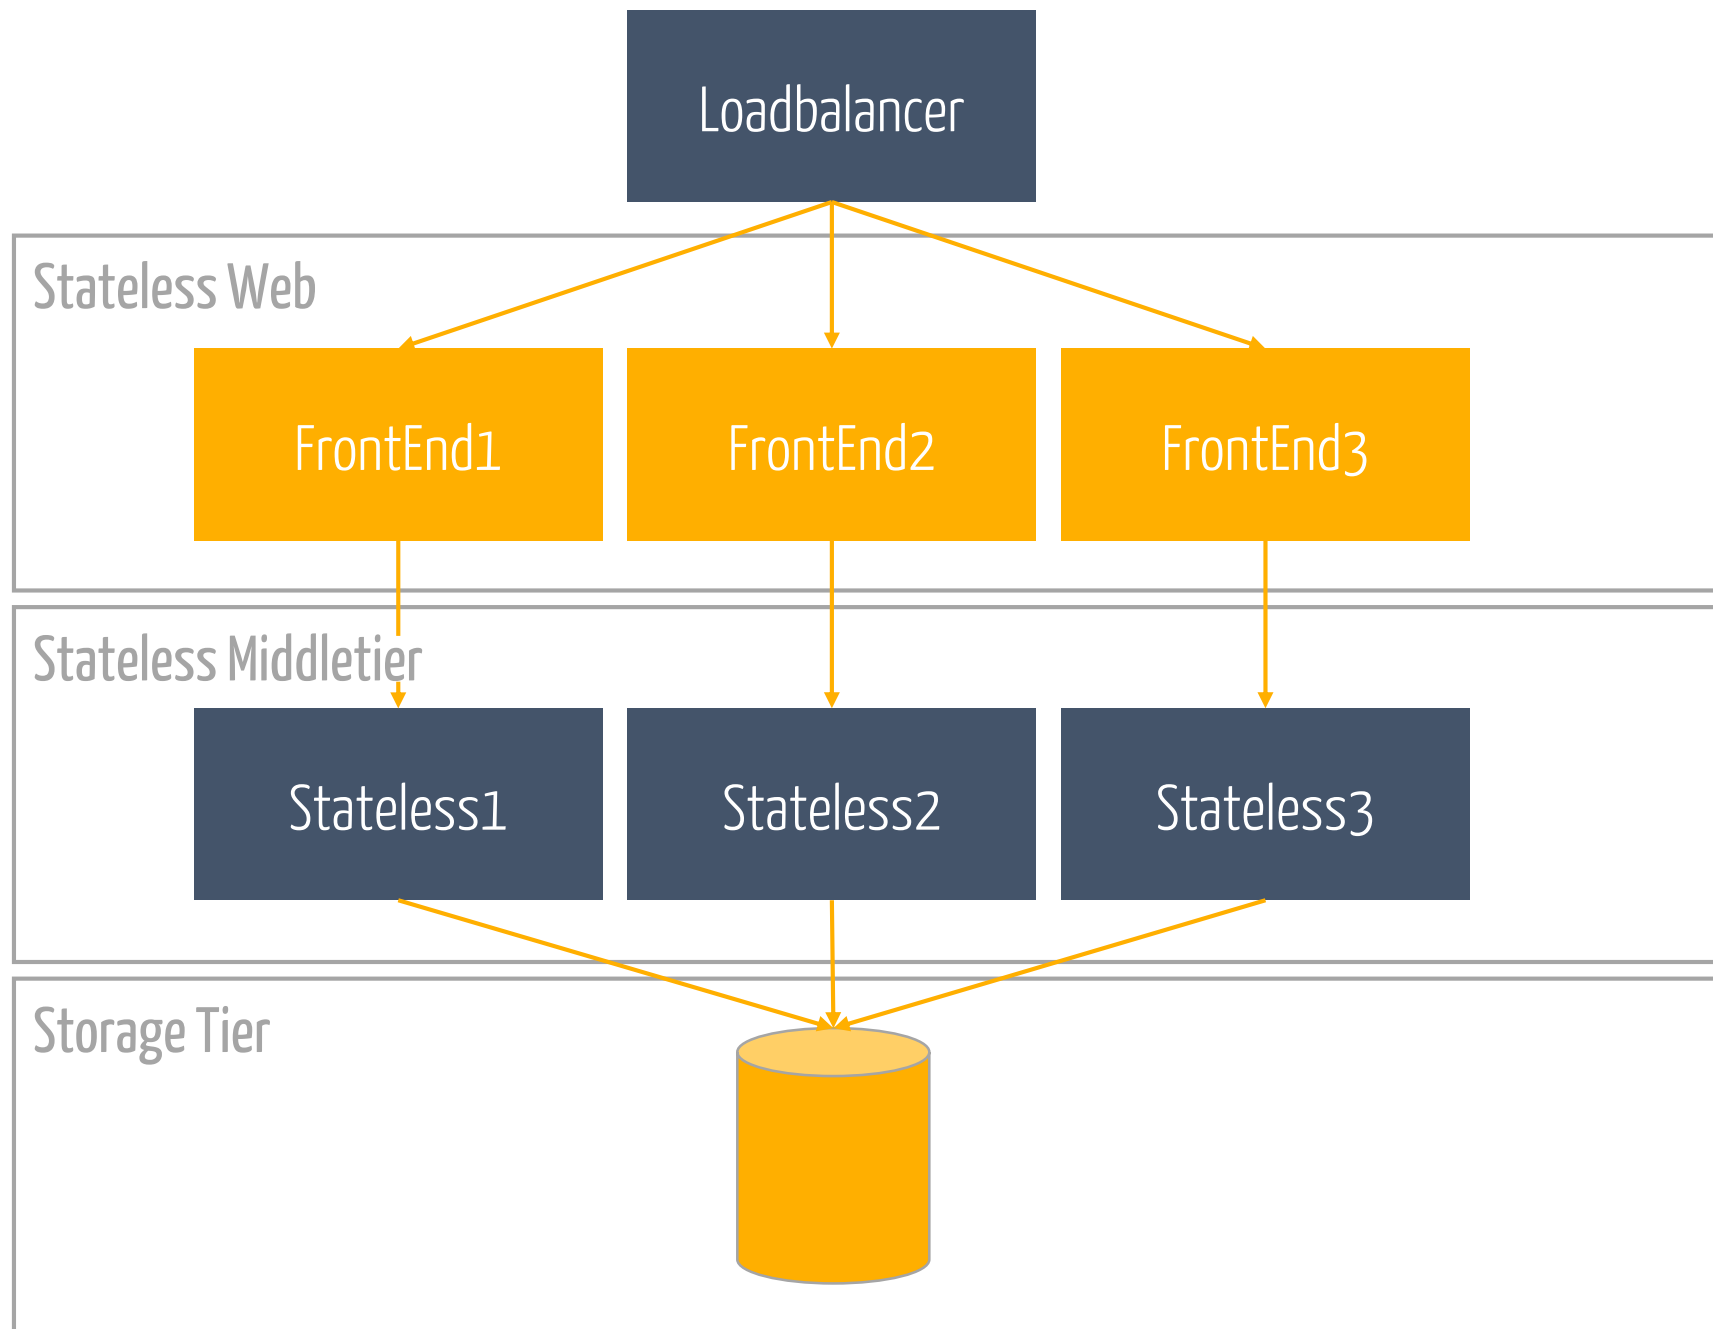

On-premises or in the cloud
