

# Microservices with Service Fabric

Easy... or is it?

# Goals

target

Stateless and **Stateful** Services

**Partitioning** of Business Data

**Message Patterns** and Partitioning

# Premise

A tale of

chocolate

# Karl's Sales Pitch

# Our Chocolate Microservices

High Availability

Stateless Services

Automatic Rollback

Load balancing

Hyper Scale

Data Partitioning

Stateful Services

Rolling Upgrades

Replication & Failover

Self-healing

Health Monitoring

Container orchestration & lifecycle management

On-premises or in the cloud

# Demo

Let's scale  
chocolate

Functional decomposition

Horizontal duplication

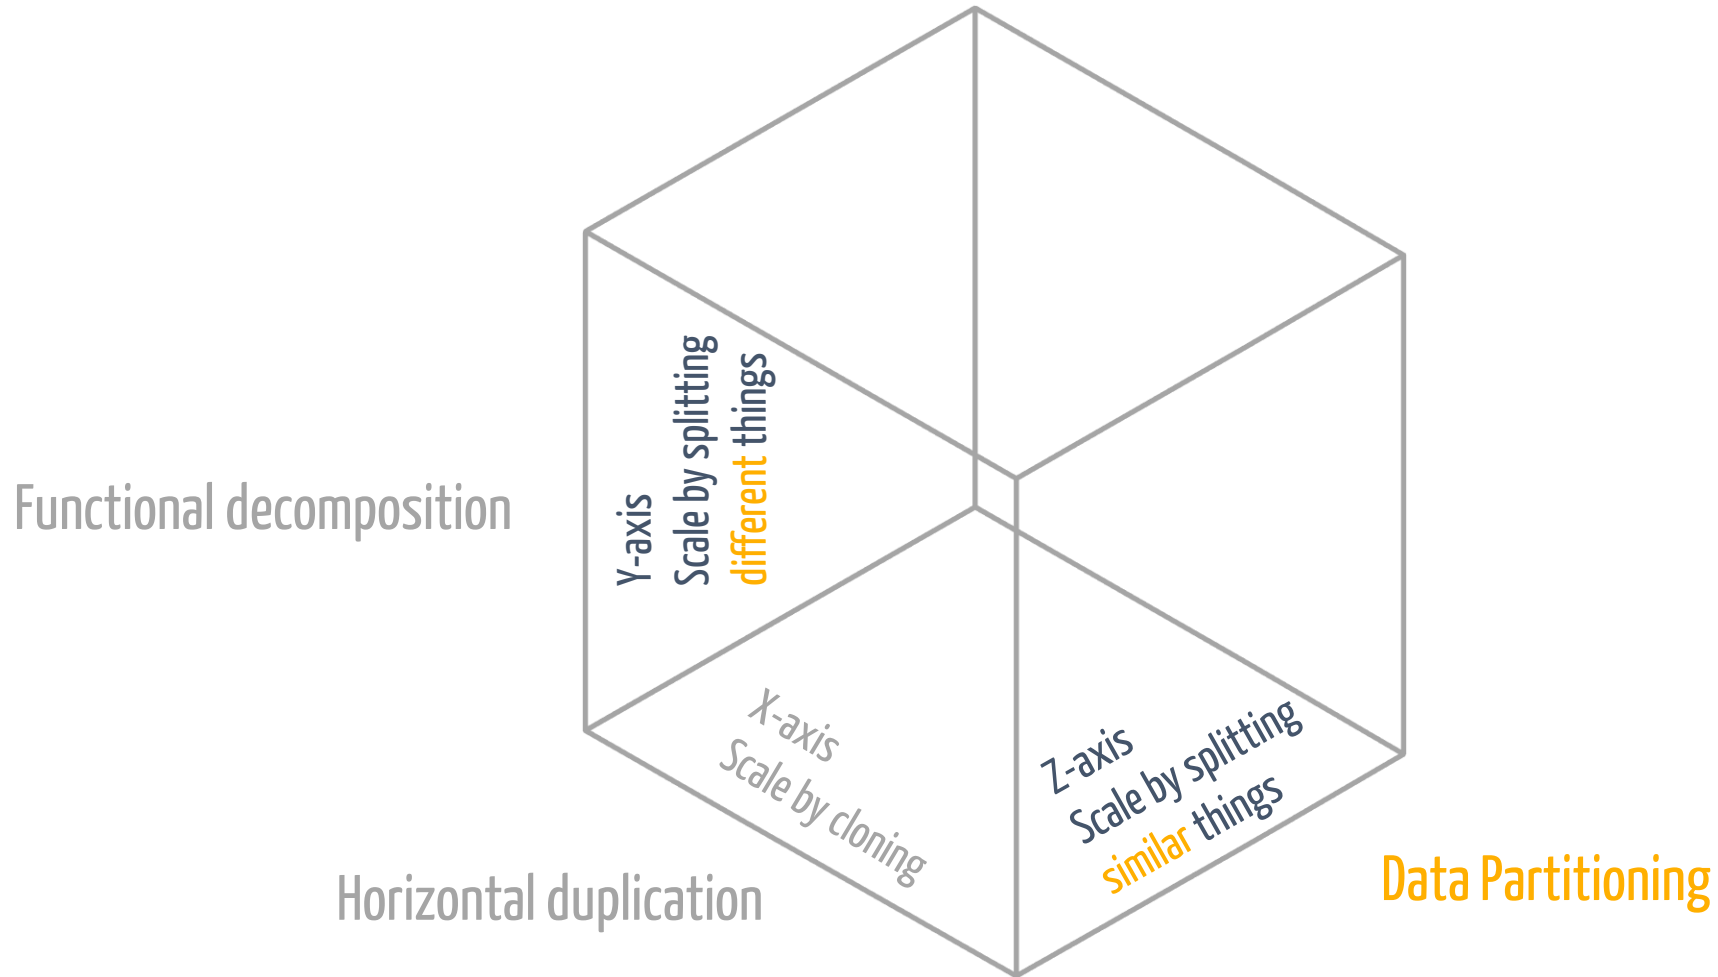

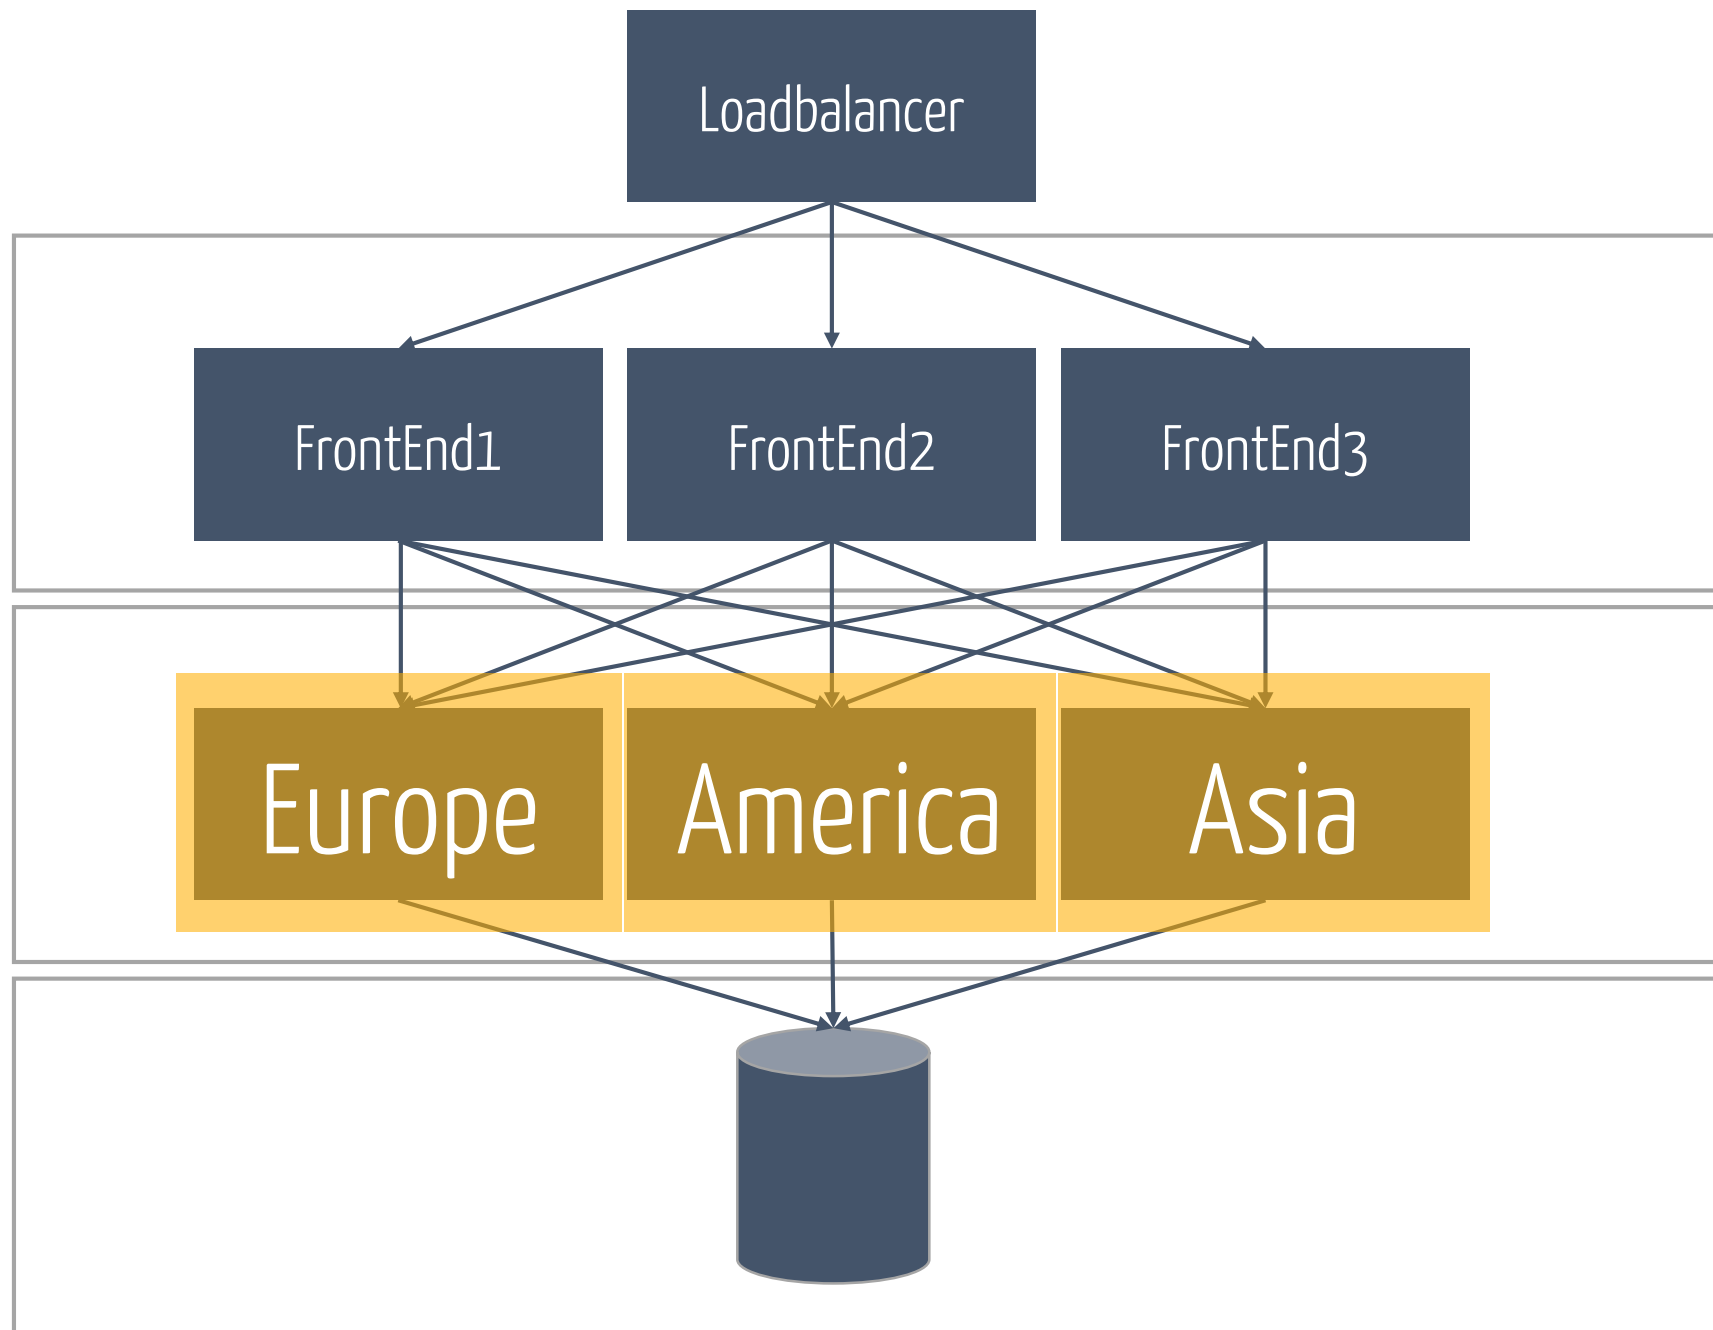

and then

Mandy spoke up

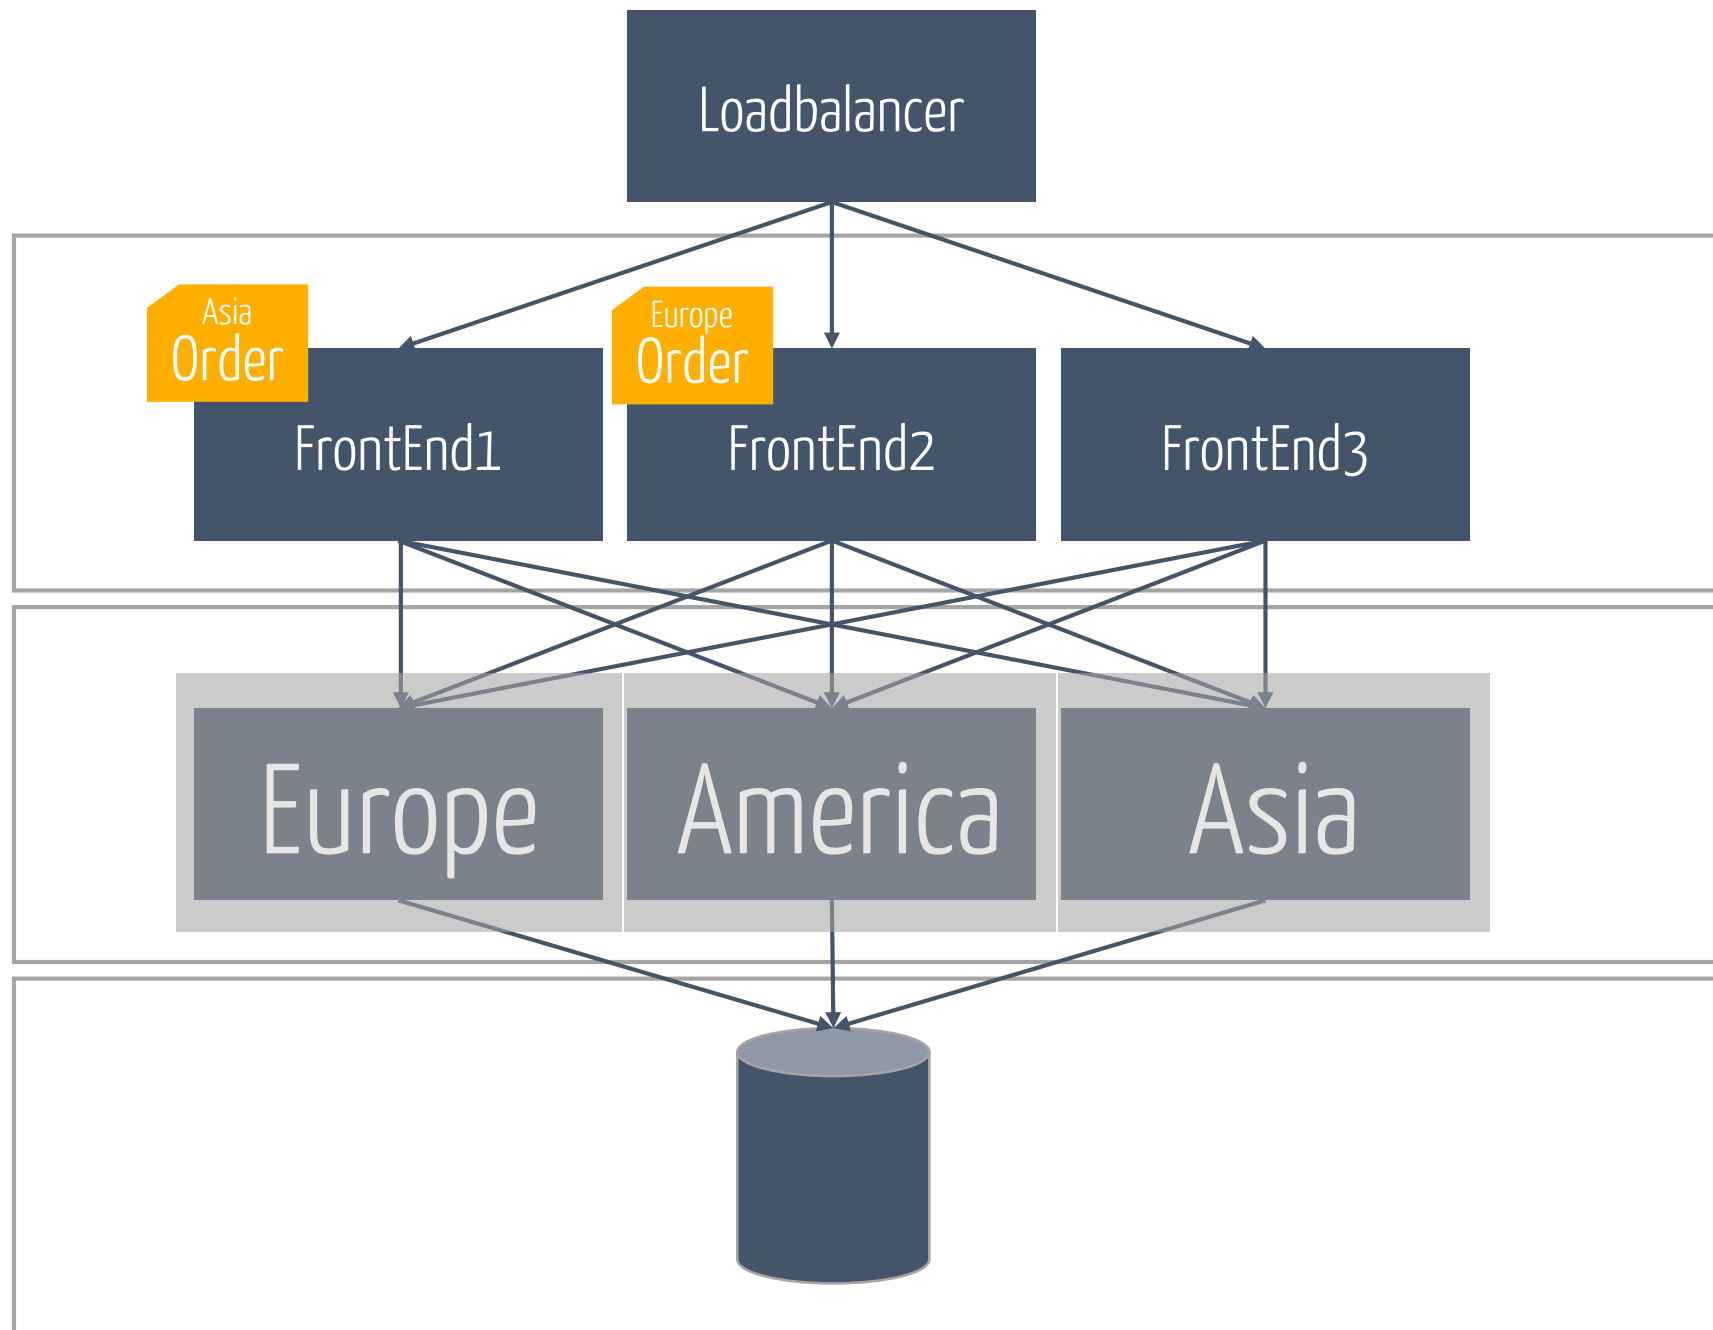

# However

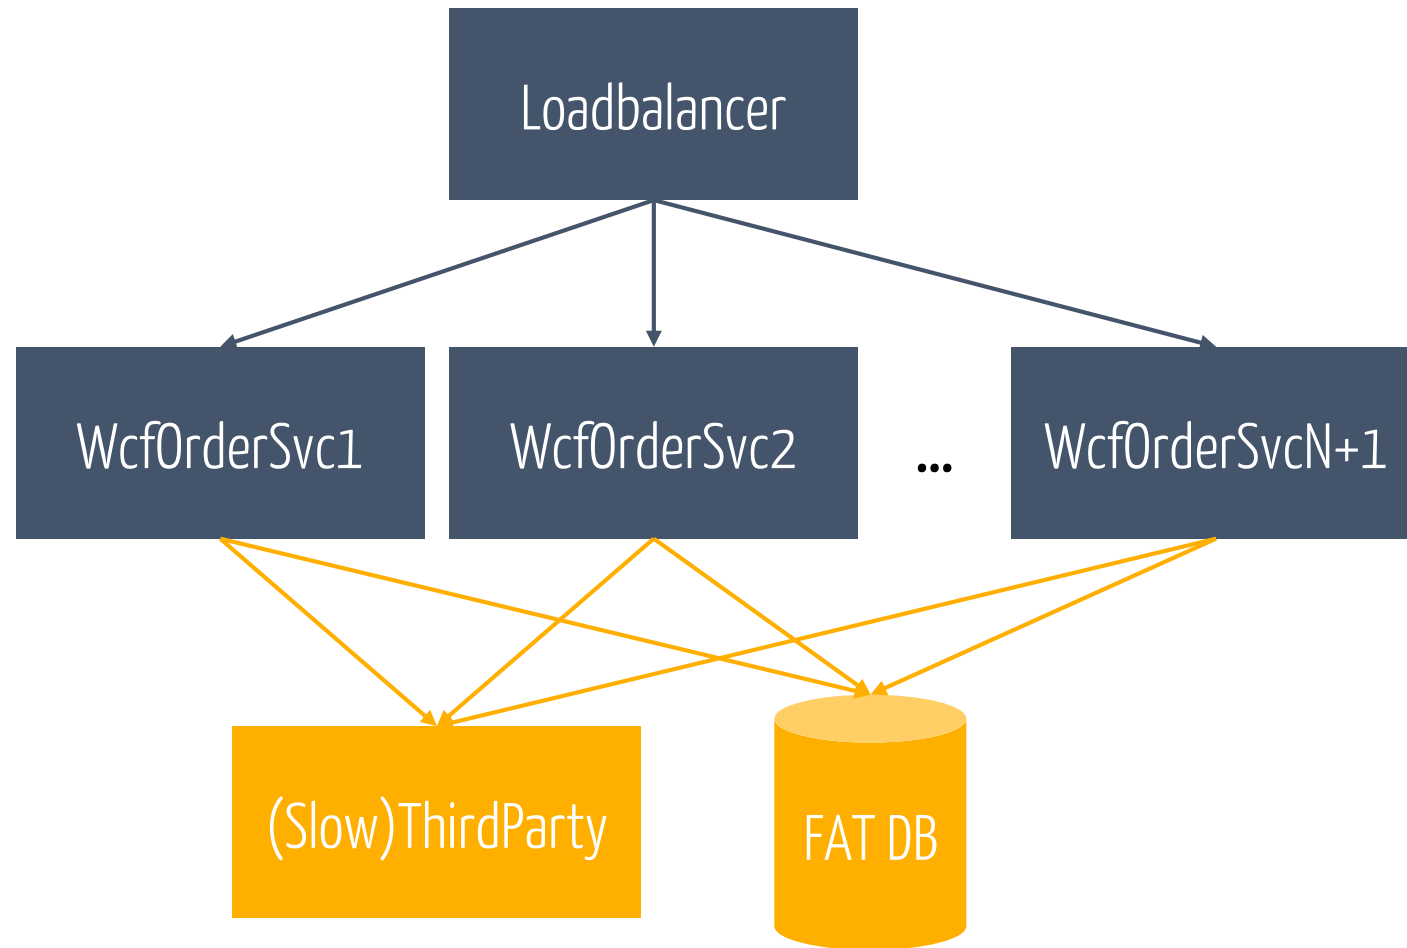

Joe couldn't understand it

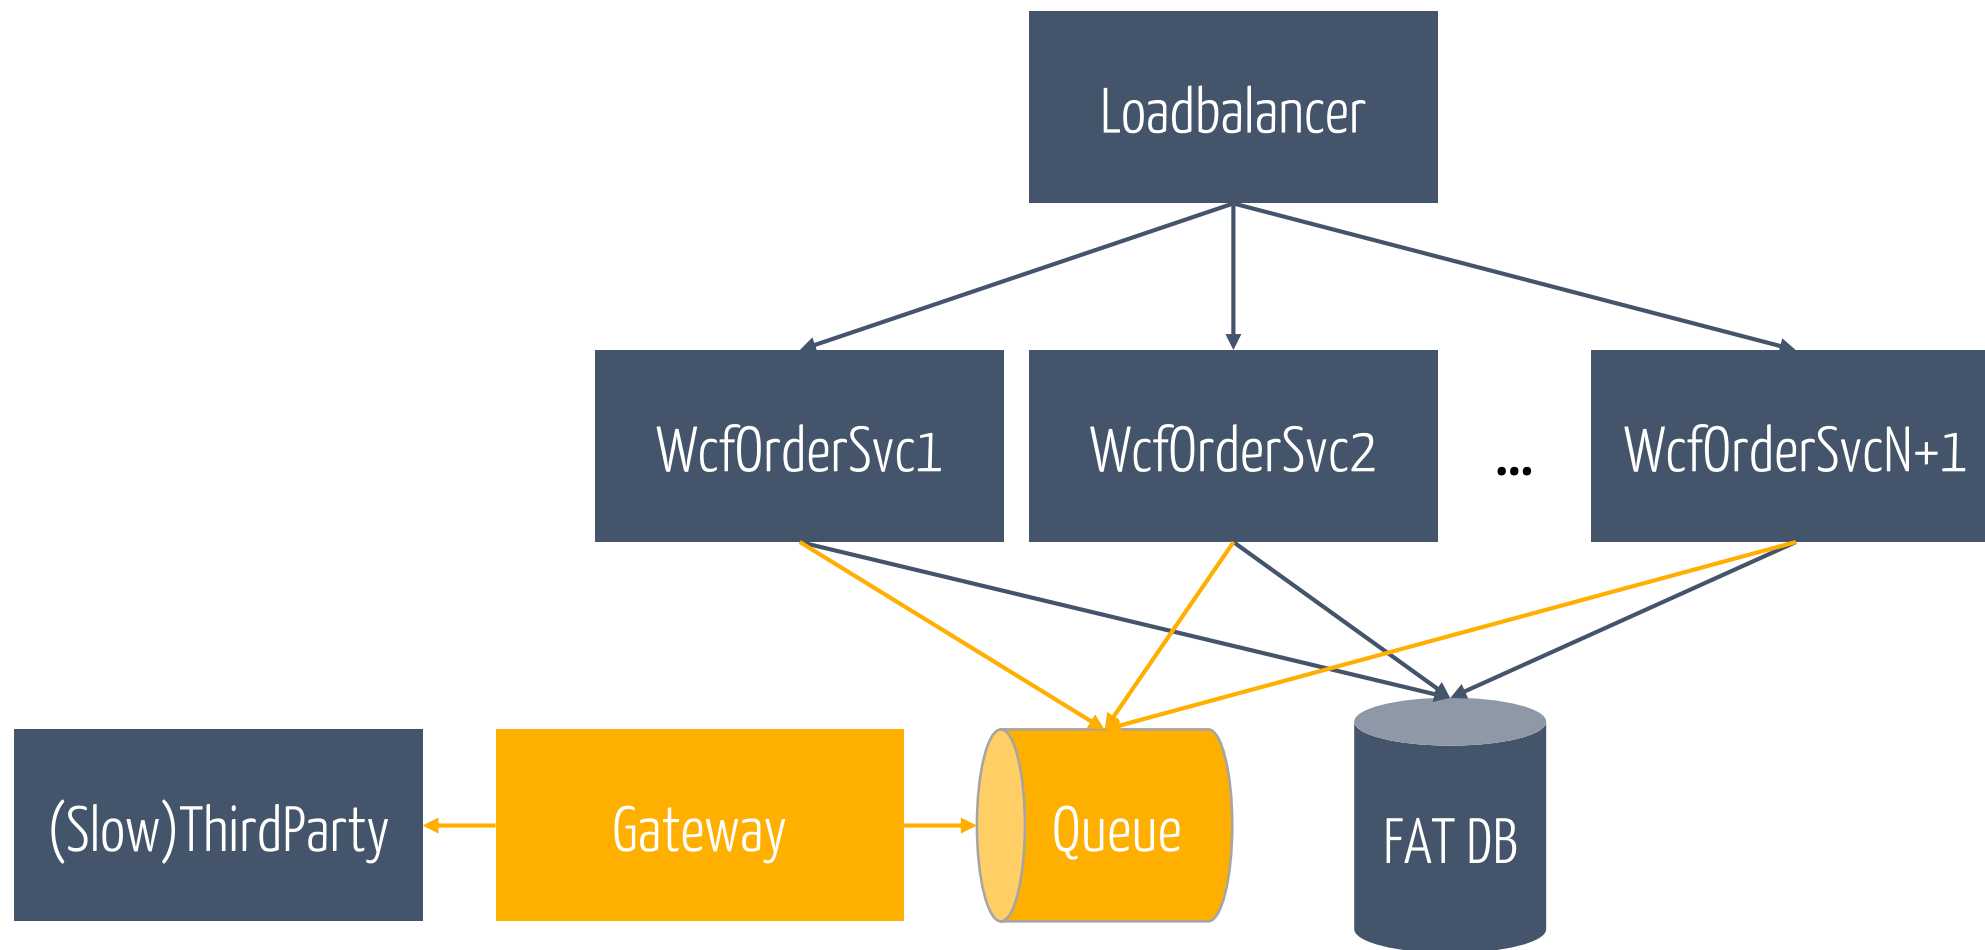

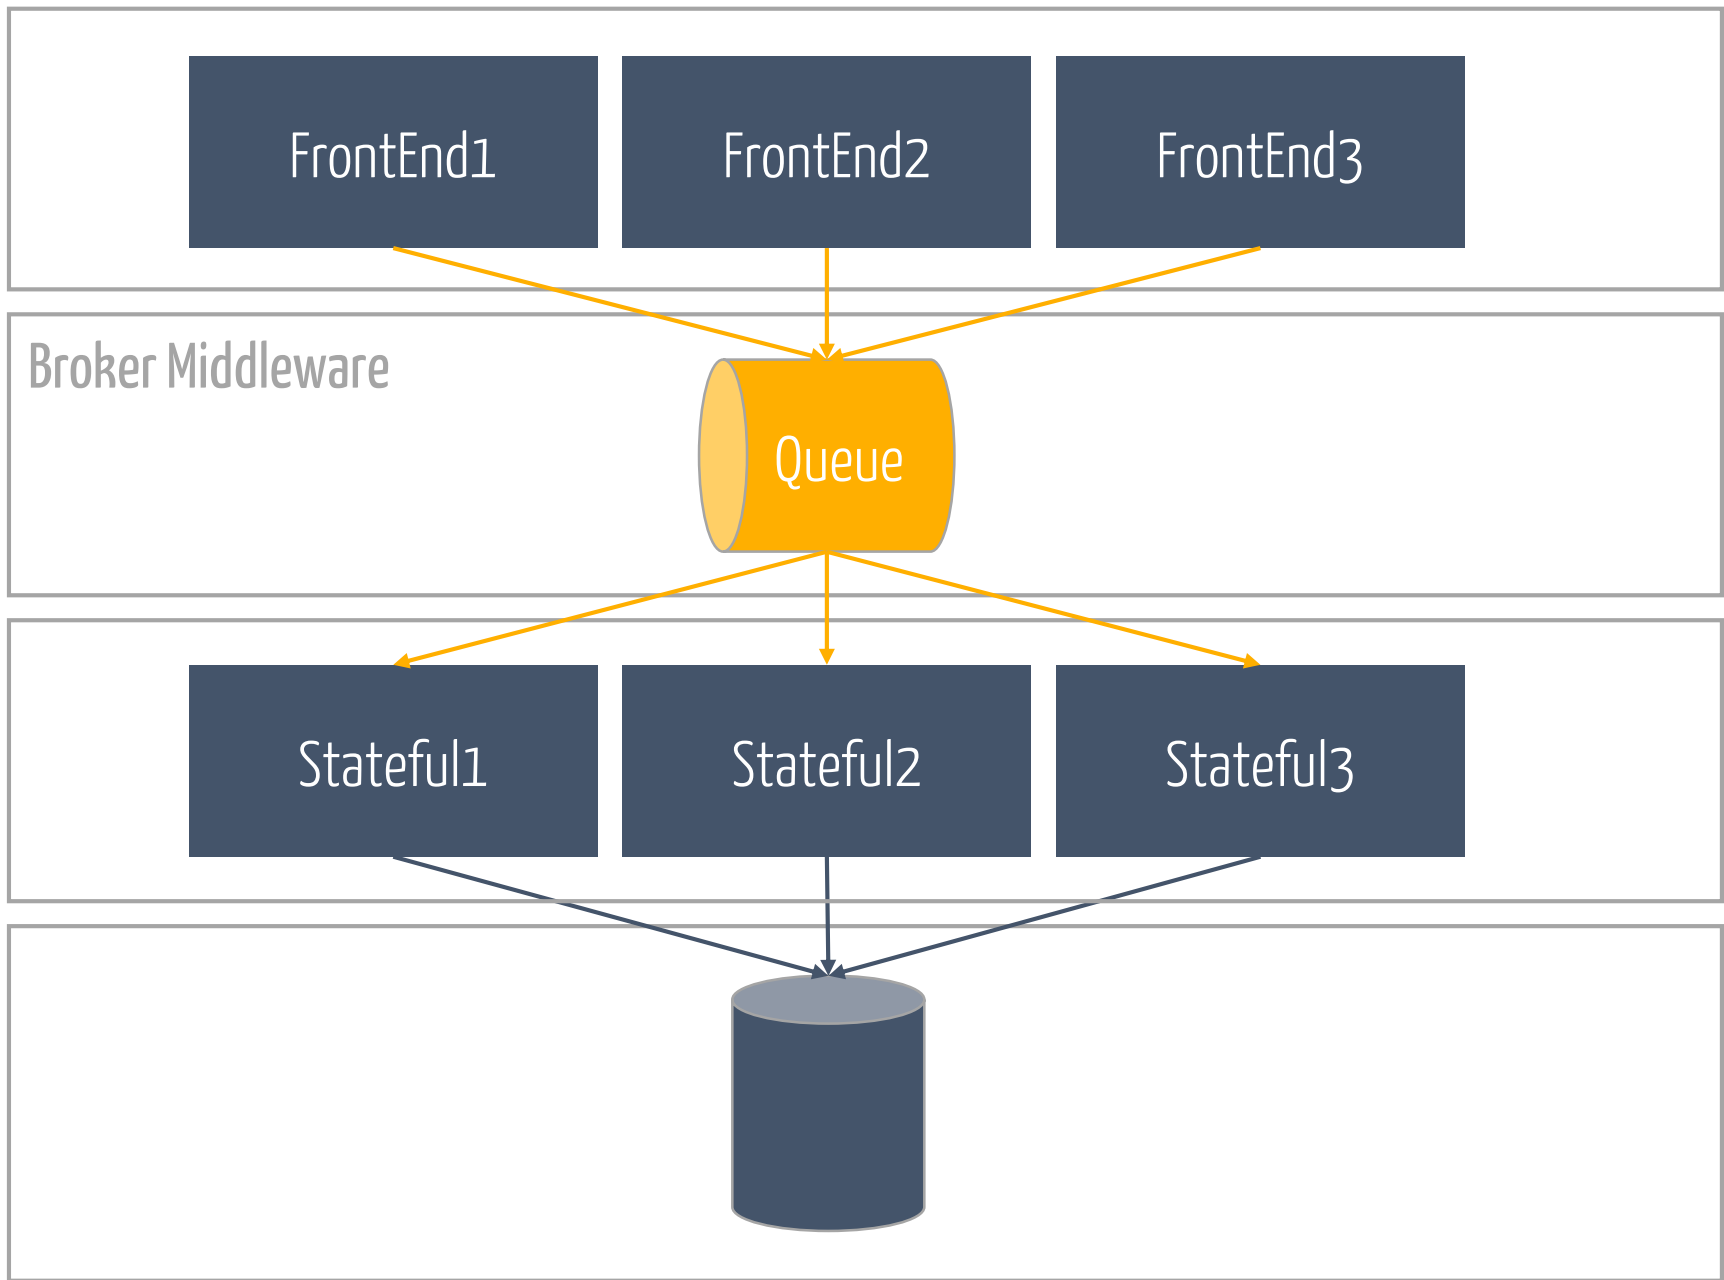

# And then

Sophia threw a grenade

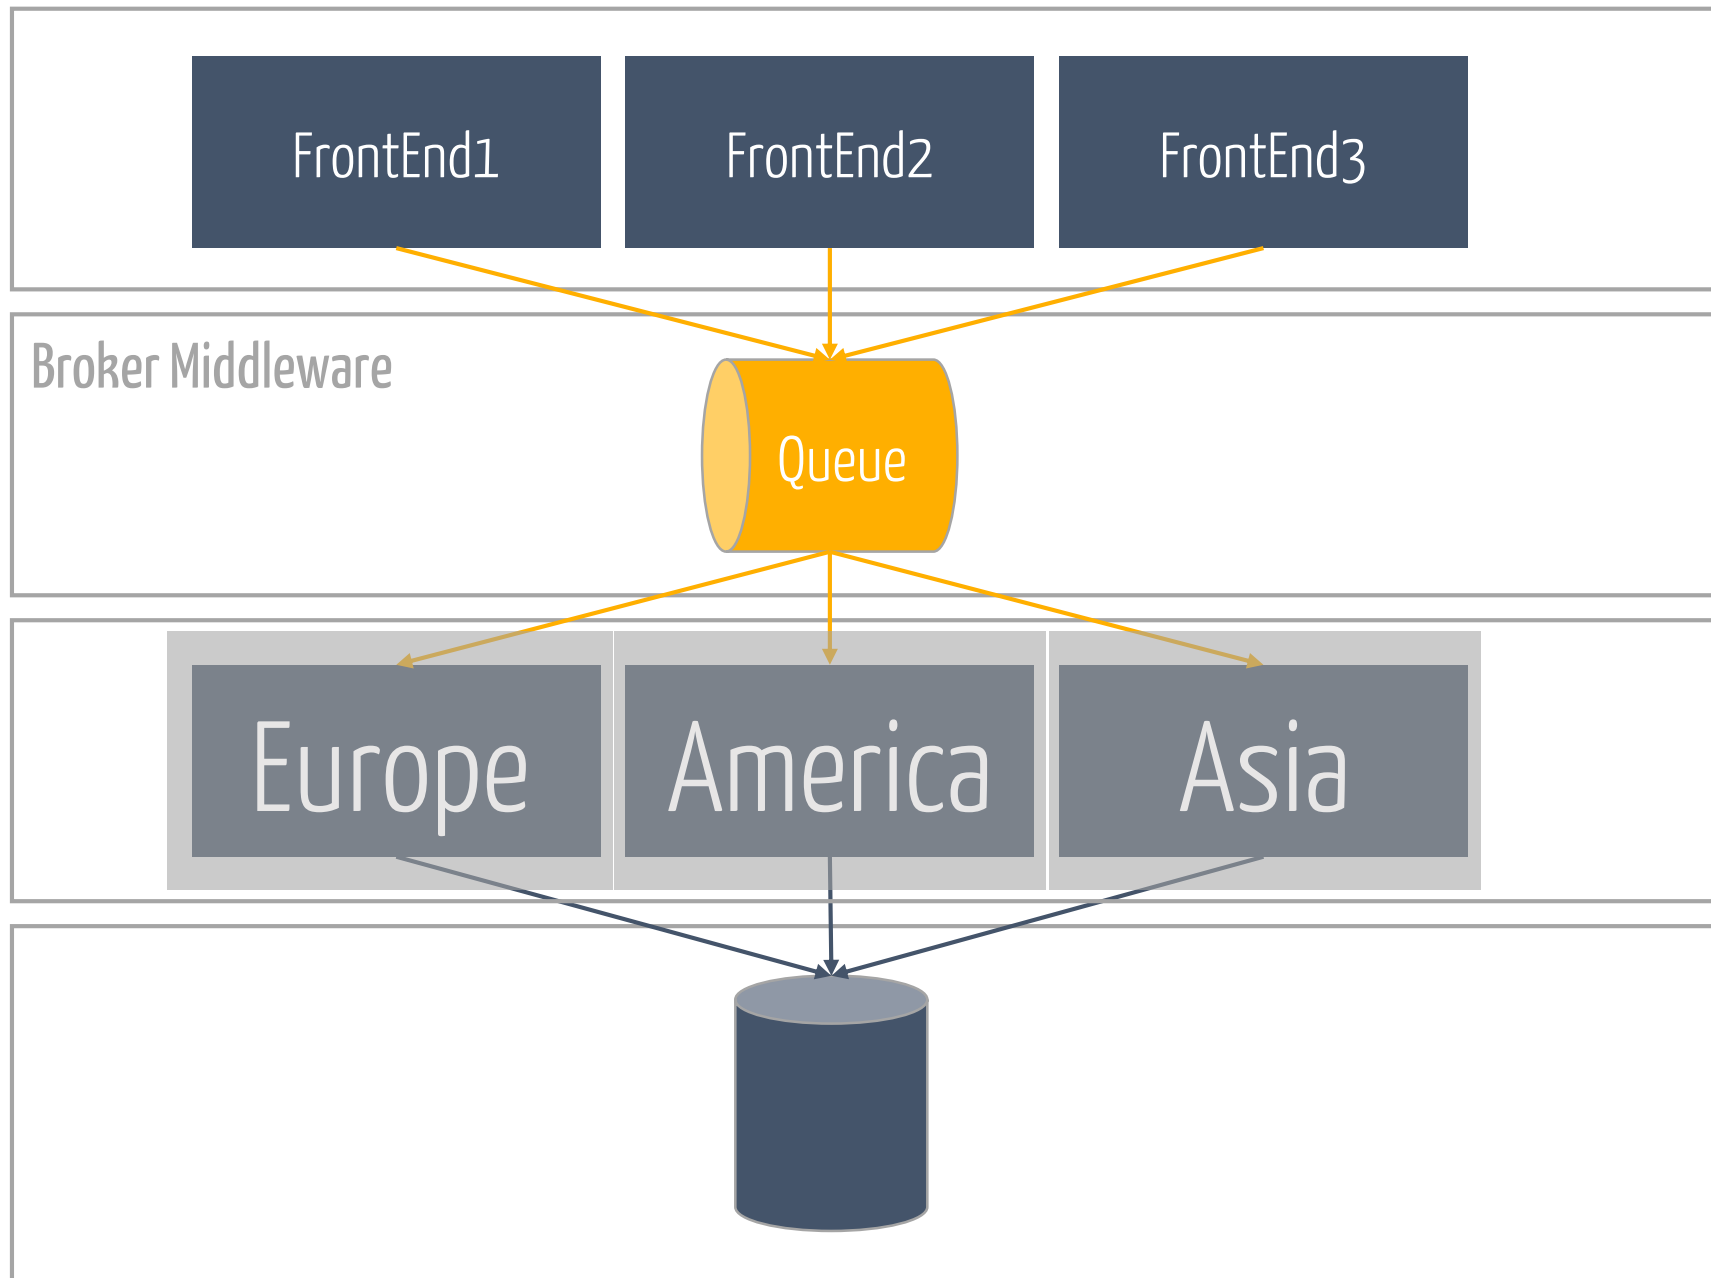

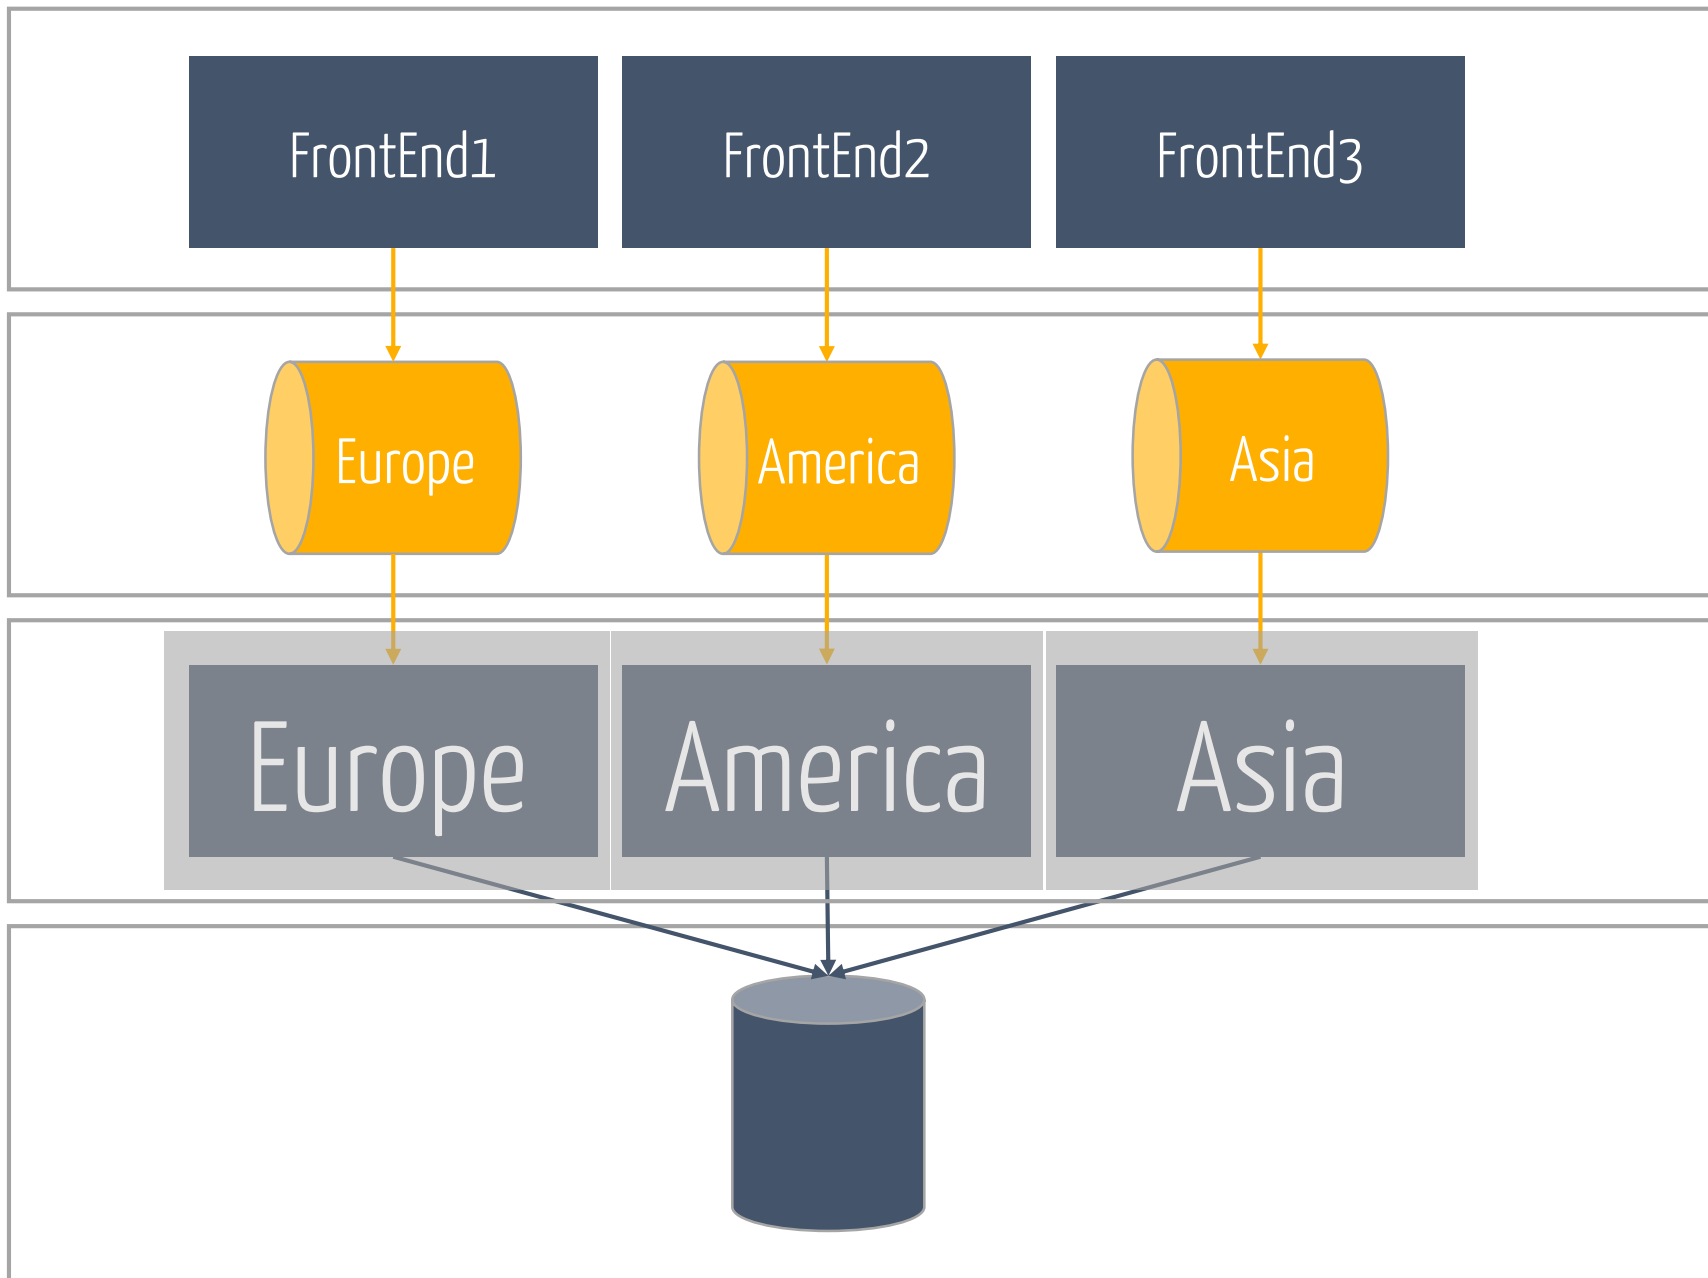

# Peter snatches

the whiteboard markers

and furiously

screams

# Recap

reminder
